

Chen Laser Institute Presents: Advanced Endodontics

Who Should Attend:

General dentists and Endodontists seeking a comprehensive, hands-on learning experience.

Course Description

- Learn how laser-assisted endodontics can help meet many of the toughest clinical challenges.
- Understand laser physics and safety.
- Rationale and guidelines for effective cleaning and shaping of the root canal system to optimize laser sterilization.
- Learn several conventional cleaning and shaping systems to address different anatomical complexities of the root canal system.
- An overview of the many current conventional root canal systems available for modern root canal procedures.
- Learn techniques on single and multiple root canal therapy using the laser.
- Learn to utilize the new endo Radial Firing Tips.
- View demonstrations of advanced endodontic techniques and perform step-by-step, hands-on exercises.
- Learn laser-assisted techniques for hemorrhage control, laser analgesia, apicoectomies and more.
- Observe over-the-shoulder clinical demonstrations of advanced endodontic applications.
- Study additional adjunctive laser-assisted procedures, including complex and anatomic variants, perforations, calcified canals, and ledging.

Chen Laser Institute Presents: Advanced Endodontics

Course Instructors:

Dr. William Chen is the author of “The Clinical Applications of the Er,Cr:YSGG Laser Systems”, which is the first and the only textbook on Waterlase Technology. He graduated from Washington University School of Dental Medicine and has been in private practice in Granite City, IL for over 35 years. He is a Master of the World Clinical Laser Institute and an Educator of the Academy of Laser Dentistry.

Dr. Browdy graduated from the University of Pennsylvania in 1970 and as a graduate of Tufts School of Dental Medicine in 1974. Dr. Browdy completed his postgraduate Endodontic training in 1976 from New York University. Through continuing education, teaching, and participating as member of The American Dental Association, The American Association of Endodontists, the New Jersey-New York Endodontics Association, and the Academy of Laser Dentistry, Dr. Browdy academically and clinically employs the latest cutting edge techniques in the specialty of Endodontics. He received his masters certification, the highest honor conferred by the World Clinical Laser Institute. Dr. Browdy is an international speaker and an author on clinical Laser Endodontics. He has been in solo private practice limited to Endodontics in Lynbrook, NY since 1977.
